

# *Interfaith Dinner With Others*

*We are all sisters and brothers, yet we walk in this world as WE Vs. They, Us Vs. Them, Others to each other, and the world is polarized as a result. This practice is one of the best ways for us to overcome all kinds of Othering, by coming together in a safe place at a global table to break bread and connect with each other on a human level.*

## *Program*

*Vegetarian dinner will be provided. Dinner table conversations will be guided by interesting and provocative questions provided by table hosts. This is a time for deep listening and heartfelt sharing*
